PSYCHOLOGY FOR ALL

Comprehensive Evaluation/Assessment

The process starts with an initial 45-50 minute appointment (parent only for minors). During this session, the testing clinician will gather relevant educational and/or developmental history information. If you have done previous testing, the clinician may review this to determine if results are applicable to this assessment.

The clinician will determine the amount of testing suggested to best serve your needs which establishes the cost and time required. The process would be either:

1. Hourly Testing – 5 hours or fewer of testing
 - a. \$250 - initial appointment
 - b. \$350 - hourly testing; up to 5 hours of testing
 - c. \$250 - follow up appointment to go over the test results
2. Comprehensive Testing - 6 hours or more of testing
 - a. All-inclusive package - initial appointment, testing, report writing, and the follow up visit for a total of \$2,600
 - b. Testing usually includes IQ, Attention, Behavior & Achievement
 - c. Full evaluation normally takes *at least 1 month*
 - d. Testing often requires multiple sessions to complete

Please note that payment is due at the time testing is scheduled. For instance, if a complete assessment is recommended, a total of \$2,600 will be due at the completion of your initial appointment. If you are not able to schedule the testing appointment(s), the fee for the initial appointment (\$250) will be due when you check out. The remaining \$2,350 can be paid when you schedule either in person or via the phone.

Information regarding insurance:

Insurance may not cover testing if your insurance company considers it to be educational rather than behavioral. We urge you to call your insurance company to verify your out-of-network mental/behavioral health benefits. Also, ask what your coverage would be for a “96101” billing code and if there are any pre-authorization requirements.

My signature below indicates my understanding that I am responsible for **payment in full** at the time the evaluation is scheduled.
